MedcoEnergi Completes Rebonjaro 3D Seismic Acquisition in Corridor Block

Jakarta, 19 March 2025 – PT Medco Energi Internasional Tbk (MedcoEnergi), through its subsidiary Medco E&P Grissik Ltd., in collaboration with SKK Migas, has successfully completed an extensive 3D seismic survey in the Rebonjaro Field, Corridor Block, South Sumatra.

The seismic acquisition covered approximately 165 square kilometers, generating critical subsurface data to guide future exploration well activities. This effort reflects Medco's long-term strategy to enhance resource potential and sustain production across the block, ensuring continued energy supply reliability. The Rebonjaro seismic survey utilized advanced wireless acquisition technology to capture high-resolution imaging, while minimising environmental impact.

The Corridor Block supplies gas to multiple domestic buyers, including PT Perusahaan Gas Negara (PGN), PT Pertamina Hulu Rokan, PT Pupuk Sriwijaya, PT Perusahaan Listrik Negara, and PT Energasindo Heksa Karya, in accordance with government allocations. As of February this year, Corridor's gas supplies are 5% higher than the targets set in the 2025 Work Program & Budget, confirming strong operational performance and efficiency.

Ronald Gunawan, Director & COO MedcoEnergi stated, "Corridor strong production performance and safety records confirm Medco's commitment to operational excellence and sustainable energy development. Our continued investments in exploration, development and production optimisation are crucial for ensuring reliable gas supply, strengthening Indonesia's energy security, and supporting economic growth."

PT MedcoEnergi Energi Internasional Tbk ("MedcoEnergi") is a leading Southeast Asian energy and natural resources company listed on the Indonesia Stock Exchange (MEDC-IDX). MedcoEnergi has three key business segments, Oil & Gas, Power and Copper Mining. MedcoEnergi explores for and produces oil and gas primarily in Indonesia. The Group operates gas, PV, geothermal and hydro power plants in Indonesia through MedcoEnergi Power and has a non-consolidated interest in PT Amman Mineral Internasional Tbk which operates a large copper and gold mine.
